Script database

The screenshot displays the phpMyAdmin web interface. The browser address bar shows the URL: `localhost/phpmyadmin/db_structure.php?server=1&db=perpustakaan`. The interface is titled "Server: 127.0.0.1 Database: perpustakaan".

On the left sidebar, the "Recent" and "Favorites" sections are visible. The "Recent" section lists various databases and tables, including "perpustakaan" which is currently selected. The "Favorites" section is empty.

The main content area shows the "Structure" tab for the "perpustakaan" database. It contains a table listing the database's tables:

Table	Action	Rows	Type	Collation	Size	Overhead
anggota	[Browse] [Structure] [Search] [Insert] [Empty] [Drop]	0	InnoDB	utf8mb4_unicode_ci	16 KiB	-

8 tables	Sum	7	InnoDB	latin1_swedish_ci	144 KiB	0 B

Below the table list, there is a "Filters" section with a search box "Containing the word:". There is also a "Check all" checkbox and a "With selected:" dropdown menu.

At the bottom of the main content area, there is a "Create table" section with a "Name:" input field and a "Number of columns:" input field set to "4". A "Go" button is located to the right of these fields.

The bottom of the interface features a "Console" panel with a "Press Ctrl+Enter to execute query" prompt and buttons for "Bookmarks", "Options", "History", and "Clear".
